In order for a student to count on Table 5, they must meet the basic NRS requirements:

- Be 16 years of age or older
- Have a valid assessment in the FY for which they are counting
- Complete 12 or more instructional hours in the FY for which they are counting

Plus...

- The student must be LEFT

Students are considered left:

- When the student completes all classes and the overall status of the student is Left
- The student has more than 90 days with no instructional hours entered

When a student leaves with an enter employment or retain employment goal that has not been met, follow up with the student must be conducted in the correct follow up quarter.

For enter employment goals – follow up is in the quarter after the student leaves

For retain employment goals – follow up is three quarters after the student leaves
